## **Course Description**

This course trains emergency responders and their supervisors and managers in the skills necessary to effectively plan for and manage a WMD/terrorism incident by adapting the existing Incident Command System (ICS) to the unique challenges posed by the integration of local, state, and federal agencies and departments into a unified command structure. The course uses a multidiscipline, jurisdictional teambuilding approach to accomplish the learning objectives. Upon course completion, participants will possess a working knowledge of local, state, and federal agency roles and responsibilities and their integration into a unified command system for crisis or consequence management. The course delivery methodology consists of lectures, small group discussions, participant activities, case studies, multimedia scenarios, and a tabletop exercise.

## **Intended Audience**

Emergency responders, supervisors, and managers, from the following disciplines/services

- Fire service
- Emergency medical services (EMS)
- Hazardous materials (Hazmat)
- Law enforcement (LE)
- Public health (PH)
- Public works (PW)
- Emergency management (EM)
- Government administrative
- Private Sector and military (if invited by the host jurisdiction)
- County, state, and federal agency personnel who will respond with a local jurisdiction during a WMD/terrorism incident

**Entry Level Objectives:** Participants must work in one of the above disciplines/services, possess a working knowledge of the jurisdiction's Emergency Operations Plan (EOP) and have completed a WMD/terrorism incident awareness course. NERRTC, in cooperation with the ODP, distributes a WMD/Terrorism Awareness for Emergency Responders Course via the Internet at <http://www.teexwmdcampus>.
